

OFFICE OF HEALTH CARE INTEGRATION

Key Questions for Stakeholders

- 1) What are or could be the advantages to integration of the current three health departments (DMH, DPH and DHS) under a single umbrella agency?
- 2) What disadvantages would you want the Board of Supervisors to be aware of related to the proposed integration? How can these be mitigated?
- 3) Other than a model of an agency director and three distinct reporting departments, what additional models should be considered?
- 4) What could be considered as centralized administrative agency functions, and along what timeline?
- 5) What should not be centralized administrative agency functions?
- 6) Are there some service-related functions that currently occur in all three departments that should be combined, for example Housing?
- 7) Please share your thoughts on implementation timeline and process.

“Do it if good things will happen.”
